

CP to XC

A theory day with Ed Cleasby & Dave Ashcroft

Sunday, 10th March at Hawkshead Brewery, Staveley.

Dear All,

Last year Ed Cleasby and Dangerous Dave held a gathering of Dale and Lakes pilots on neutral grounds at Staveley, West of Kendal. The intention was to cover in detail what you can hardly touch on when sitting on the hill. The scope was from Take-Off to XC, omitting nowt!

However, last year we left at half time to go flying and only touched the surface. Learning from this, we hope to complete the syllabus in a day (10am to 5pm) - no gliders allowed!

Besides the inevitable blackboard sketches, we'll keep the momentum going with slides, photos, video clips - and maybe a few tall tales. The date set is Sunday the 10th of March at the Hawkshead Brewery (in Staveley, not Hawkshead). The venue is paid for by the Club but we need to get a fiver each to cover tea, coffee and biscuits throughout the day - but you'll have to bring your own butties or forage locally.

Let's hope it'll be a horrible day (the weather, that is!).

We don't expect successful XC Hounds to attend, but all other pilots will hopefully find this day beneficial and get closer to 'cracking the code' this year.

I think we accommodated 25 pilots last year.

**To book or make enquiries, please contact Dave Ashcroft on:
e-mail: canddashcroft@hotmail.com or mobile: 07752 750869**

Cheers.

Rick Livingstone.

CSC Social Secretary.
